

Hollywood

Description

The Hollywood 5400 is an exclusive VVIP seat specially designed to offer the maximum comfort and functionality in the most exclusive VIP lounges, cinemas or stadiums.

Equipped with up to three motors, the seat allows the user to control the position of the headrest, backrest and footrest independently, achieving an optimal comfort just by using the waterproof touch screen. In addition, an iPad can be integrated for a wide range of functionalities.

The automatic return system keeps the space always neat and free for movement between rows, returning the back and footrest to their original position when the user stands up.

There are no limits in options and finishes, all kind of different accessories can be added to the Hollywood seat, achieving the highest customization and optimal functionality.
