

## JEITA GROTTOS

20 km north of Beirut, the breathtaking Jeita grottoes have welcomed thousand of visitors. The two breathtaking grottoes superimposed and linked by cable car, sink at thousand meters inside the mountains. The lower grotto may be visited with a bark that leads you into narrow underground passages and lakes and to the source of the River Nahr El Kalb.

The upper grotto may be explored on foot but accompanied by a guide. Stalactites and Stalagmites evoking the fauna and the flora, water falls, lakes, natural columns, a surrealistic world that intrigues the spectator.
