

Split & Move Solution

New partition walls for social distancing economy

For many employers and entrepreneurs, the social distancing economy presents a unique challenge. Espero understands that. How do you create a safe and healthy work environment where people can keep their distance without having to rent extra space, relocate, or take other costly measures?

Split Solution

Two new Wall Systems

After exploring the needs that exist out in the field, Espero has created something new to make it all a lot easier for employers and entrepreneurs: the Split and Move solution. Quick and easy maneuverability, short delivery time, easy cleaning, and a wide choice of finishes make these space-saving walls the perfect solution for unlimited space configuration flexibility for your office, school, shop, restaurant or business.

Partition Wall 1: Split Solution

Frame + panels to split spaces quick and easy

Split: made of a steel frame with top-hung or floor-supported panels. With this solution, splitting up a space is quick and easy to do. Since no existing structural elements are needed, the wall is easy to remove. Ideal for spaces such as meeting rooms where you temporarily need to create multiple separate workspaces.

Features Split Solution

No existing structure needed

- Visio top hung or Flexio floor supported
- Flexible dimensions
- Door is optional
- Several finishes and colors available

Visio Panels

- Individual glass panels
- Optimal transparency
- Optimum space utilization and visibility
- Effortless and silent operation

Flexio Panels

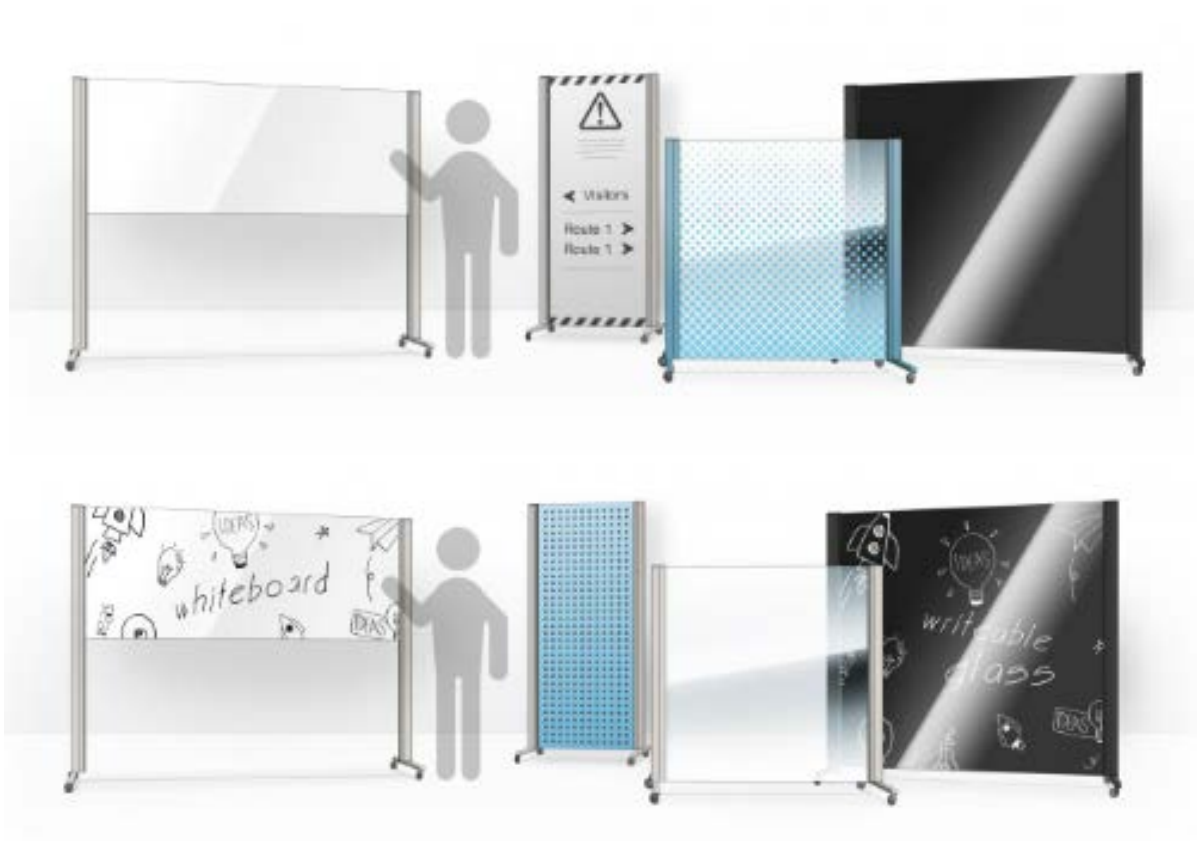

- Folding wall, a sandwich construction is used to make the individual panels
- Easy of use
- Minimalist design
- The sound-absorbing materials together with the rubber sealing profiles guarantee a sound insulation rating from $R_w = 38$ dB to $R_w = 46$ dB. Click below to learn more about sound insulation

Partition Wall 2: Move Solution

Movable screens

Move: multifunctional screens that you can wheel to wherever you need them at any time. With a wide choice of available dimensions and finishes, this screen not only offers a great way to guarantee safety, but also lets you provide privacy, configure rooms for training purposes, and absorb sound. Thanks to effortless maneuverability, this screen can be moved to be used somewhere else within seconds.

Split Solution

Features Move solution

- For schools, offices, shops, public spaces, etc.
- Multifunctional: privacy, safety, training, sound absorption, etc.
- Flexible dimensions, with or without wheels
- Several finishes and colors available.
- Also as desk screen available.

Your Benefits

Quick and easy maneuverability, short delivery time, easy cleaning, and a wide choice of finishes make these space-saving walls the perfect solution for unlimited space configuration flexibility for your office, school, shop, restaurant or business.

- Easy operation and light-weighted systems, short delivery time
- Future proof: maximize usage of your space
- Modular: start with one, change or extend to your needs
- Glass, whiteboard, color selection and more
