Though people of various cultures have lived on the Arabian Peninsula for more than 5,000 years, the harsh climate historically prevented settlement, except in major oases. Most of the great empires of the ancient world traded with the Arabian Kingdoms that commanded the important spice trade routes on the peninsula. The country's main attraction and its hidden treasure is the UNESCO World Heritage site of Madain Saleh. It is considered second only to the famous site of Petra in Jordan, in terms of Nabataean architectural remains.

There are colourful markets, desert landscapes, coral reefs, rock engravings and ancient monuments; the country has so much to offer to those who choose to venture in it and explore a nation that is seldom exposed to the eyes of the outsider.

Day 1 – Arrive Jeddah

Arrive in Jeddah and after clearing immigration and customs, you will be met by your guide and driver and transferred to your hotel for overnight.

Day 2 – Full day visit of Jeddah

This morning, we will visit some of the old Ottoman houses, which are mostly constructed from coral and reinforced with wooden beams that criss-cross the interior walls. The most beautiful and well known is Baashen and Sharbatly Houses and from the outside, we will also see Nassif House, which was built in the 1850's by the well-known Nassif Family; one of the most influential trading families in the history of Jeddah. In the 19th and early 20th centuries, the house was one of the most important buildings in Jeddah. It was here that King Abdul Aziz spent his first night in Jeddah as the guest of Mohammed Nassif after he led his victorious army into the capital of the Western Province. Lunch will be served at a local restaurant. We continue onto the Corniche of Jeddah (the seaside promenade), a major attraction that acts as an open-air museum displaying an array of modern sculptures as well as a social gathering place for locals. Afterwards, we visit Al Tayebat International City for Sciences and Knowledge, also known as the Abdul Rauf Khalil Art Museum. This beautiful museum houses a huge collection of arts, and ethnographical and archaeological artefacts.

Return to your hotel for dinner and overnight.

Day 3 – Jeddah - Abha

Check out of the hotel and depart for the colourful fish market followed by a transfer to the airport for the flight to Abha, the capital city of Asir. The first stop will be atop Mount Souda, located in the Hejaz Mountain (Rejal Alma will be visited providing the cable car is operating). Continue to Khamis Mushayt, an industrial city about 25 km east of Abha. The city's antique silver market is a huge draw for visitors. The last stop today will be to Bin Hamsan Traditional Village, located on the outskirts of town. This village is an imaginative development that consists of a stone tower, a museum which is a replica of an Asir home from two decades ago, an auditorium, a traditional restaurant and a gift shop.

Ushaiger Historical Village was restored to preserve its heritage and contains a museum that displays various relics and pieces from the village.

After lunch at a local restaurant, continue to Shagra where you will visit the old walls, which were used to protect the city from attacks. Built in the 18th century, the walls were still in use up until the mid-20th century.
